

**To:** Salymbekov University

**From:** Liv Hospital

**Subject:** Online training on the International Contemporary Medical Academy of Science (ICMAS)

**Date:** 26.03.2021

Dear Rector Esengeldi Zhumadilov,

Liv Hospital and Istinye University, known for their scientific studies in the international arena, have started an important online education project: International Contemporary Medical Academy of Science (ICMAS). In the academy, training meetings will be held for physicians and medical students from many different countries; current approaches, new practices, latest treatment methodologies and technologies have been shared according to their sub-specialization.

With the 'Future of Health' motto, Liv Hospital and Istinye University academic physicians together with experienced colleagues from abroad, have created training contents that will take place important at the scientific arena. At the International Contemporary Medical Academy of Science (ICMAS), where international training meetings are held, physicians share their experiences with their colleagues.

At the same time, they will be planning joint research activities, develop student Exchange programs, share academic research data and technical materials and cooperate cultural and scientific programs together with the Academy.

In the light of this information, we would like to state that as Liv Hospital, we are pleased to welcome the physicians and students to our International Contemporary Medical Academy of Science (ICMAS) platform.

- In our joint work with Salymbekov University, students and physicians may benefit from the platform free of charge and the gastroenterology training may be started on the ICMAS platform.
- The professors and staff of Salymbekov University have right to provide the joint online trainings and courses together with Liv Hospital and Istinye University in ICMAS platform.

A handwritten signature in blue ink, appearing to be "VAG", is located at the bottom left of the page.

- In future, students and staff can make observations at Liv Hospital, and communicate with our physicians about the institution's introduction and processes within the charge. In same conditions, they may receive private training online on the ICMAS platform.
- As another option, our physicians may visit your university with mutual organizations that can be held, and we can organize the symposiums at Salymbekov University. In this way, case discussions can be obtained for the relevant medical departments and provides an international education opportunity for medical students.
